FUGAWI INTRODUCES SWEDISH MARINE CHARTS

Software Leader Offers Access to New Charts for Fugawi Marine ENC and Apple iPhone Navigation

TORONTO, Canada – Software manufacturer Northport Systems, Inc. announced today the addition of Swedish Marine Charts to its online Fugawi Touratel Map collection for use with Fugawi™ navigation software and the Apple iPhone™. Also announced is the availability of the X-Traversal chart and map data distribution system for integration by third-party developers who wish to easily add marine charts and land maps to their mobile applications.

Compatible with Fugawi Marine ENC and Fugawi Global Navigator navigation software for PC, and the popular iNavX navigation software for Apple iPhone, the Swedish Marine Charts are downloaded directly from the internet, with no CD to purchase or shipping to pay. The Swedish Marine Charts are raster images of the official charts produced by the Swedish Maritime Administration. Designed for use while boating without an internet connection, all charts are stored locally on either the PC or the iPhone for the duration of the subscription. The innovative X-Traversal Data plan also allows users to plot waypoints in Fugawi and transfer them to iNavX software on iPhone, or vice versa, as well as transfer saved tracks.

“We are pleased to introduce online Swedish Marine Charts to the boating community,” said Robin Martel, president of Northport Systems. “The rapid introduction and seamless compatibility of these charts is a testament to the power of our Touratel and X-Traversal applications. We look forward to working closely with other chart suppliers, software developers and mobile device manufacturers to ensure the effortless proliferation of content, and increasing revenue for their businesses while ensuring boaters have easy access to up-to-date and inexpensive charting data for use on mobile phones and desktops.”

Powered by Fugawi X-Traversal, an innovative web-based mobile map and data service, third-party device manufacturers and software developers now have easy access to marine and land map content for their navigation applications.

Fugawi Touratel subscriptions are sold in single user licenses and include two activations for use with two Fugawi software installations, or two iNavX apps, or one Fugawi plus one iNavX installation. Marine charts are updated annually with the latest *notice to mariner* changes.

The X-Traversal integration API is free to qualified application developers. A regularly updated list of compatible applications and supported handsets can be accessed on the X-Traversal website.

For more information on Fugawi Touratel, Fugawi X-Traversal, or to learn more about Northport Systems and its entire product line, please contact (416) 920-9300 or visit www.fugawi.com or www.x-traverse.com. Complete information on iNavX may be found at www.inavx.net and the iNavX application may be purchased directly from the Apple App Store.

About Fugawi Touratel:

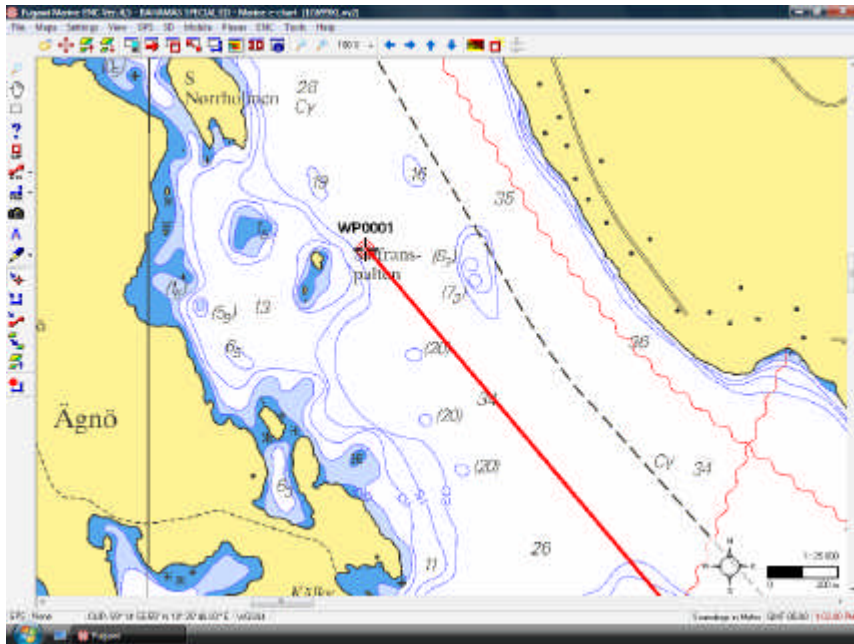

Fugawi Touratel (www.touratel.com) is cell phone-based outdoor navigation software and interactive web site designed to enhance outdoor activities such as hiking, mountain biking, fishing, hunting and more. Fugawi Touratel provides exceptional topo map detail on a wide variety of mobile phone handsets as well as the complimentary touratel.com website.

About Fugawi X-Traversal:

Fugawi X-Traversal (www.x-traverse.com) is designed for marine and outdoor enthusiasts who enjoy flexible charting and planning. The innovative application enables users of mobile software to exchange data with PC or Mac based software. X-Traversal provides seamless waypoint transfer between an iPhone or iPod Touch and a PC or Mac, and allows users to safely save, retrieve and move data without cabling between a desktop and a mobile device. X-Traversal also facilitates the direct download of Fugawi Touratel Maps to a variety of desktop and mobile application. A regularly updated list of compatible applications and supported handsets can be accessed on the X-Traversal website.

About Northport Systems, Inc.:

Established in 1995 in Toronto, Canada, Northport Systems, Inc. (www.fugawi.com) now supplies desktop, mobile and Web 2.0-based navigation and mapping software products to over 130 countries under the Fugawi brand. Northport enjoys a worldwide reputation as a leader in GPS mapping software and innovative GPS applications for the outdoor recreation, marine, tracking and military markets. Fugawi Software, Fugawi Touratel and Fugawi X-Traversal are properties of Northport Systems, Inc.
